

Prior Awards Addendum

If your company has received more than 15 SBIR or STTR Phase 2 awards in the prior 5 fiscal years, you must provide the information requested below for each Phase 2 award.

If your company has received any SBIR or STTR Phase 2 awards, even if it has received fewer than 15 in the last 5 years, it is still recommended that you complete this form for those Phase 2 awards your company did receive. This information will be useful when completing the Commercialization Metrics Survey, and in tracking the overall success of the SBIR and STTR programs.

Any NASA Phase 2 awards your company has received are already included below, as are any Phase 2 awards previously entered by your company. You may update the information for these awards.

Note: The designated Firm Admin, typically the first person to register your Firm, is the only individual authorized to update this form.
