Section 1.4

The fifth paragraph previously read:

Phase II Enhancement (Phase II-E) and Phase II eXpanded (Phase II-X)

The purpose of the Phase II-E Option is to further encourage the advancement of innovations developed under Phase II via an extension of R/R&D efforts underway on current Phase II contracts. Under a Phase II-E option, the NASA SBIR/STTR Program will match, on a dollar-to-dollar basis, a minimum of \$25,000 and a maximum of \$125,000 of non-NASA-SBIR/STTR investments in a small business by an eligible third party to extend a project from 6-to-12 months. New work proposed under a Phase II-E effort must build upon and demonstrably advance the R/R&D conducted during Phase II, and should therefore lead to new outcomes not achievable with Phase II funding alone. Eligible third parties include a NASA project, NASA contractor, or any commercial investor. The total cumulative award for the Phase II contract plus the Phase II-E match is not expected to exceed \$900,000 of SBIR/STTR funding. The non-SBIR/non-STTR contribution is not limited since it is regulated under the guidelines for Phase III awards.

Should now read:
